PRIDAY, Oct. 14. There was a further contraction in the volume of business on the Stock Exchange to-day and a greater concentration of interest in a few stocks. These circumstances were attended by another usual feature of a professional market at the close of the week, namely, a dis-position to realize profits, and these character-istics together resulted in a dull and rather heavy market. There were few exceptions to wing tendency of the market, and these were of no general significance; but, on the other hand, the net declines were as a rule point in the more active stocks were noted Rapid Transit, and Metropolitan Street Bailway. The few stocks which closed at met ndvances were all of the Inactive class and isoluded St. Paul preferred, Pullman's Palace Car, New York Air Brake and the Baltimore and Ohio issues. The slightly reactionar ree of the market was naturally in part due to the reduction in the short account following the trading of the week, and foreign houses were also fairly heavy sellers of stocks in this market, the disposition of their orders being edon money market and the disturbed condition of the Continental bourses.

Only four stocks were dealt in to the extent of 10,000 shares, namely, Sugar Refining, erican Tobacco, Northern Pacific common and St. Paul. Of these the two first named fur hed nearly one-half of the day's total transactions. Sugar Befining was the most active ture of the market and the most erratic in its movements. An advance of 2 Pfcent. in the forencon was followed by a decline of 3% \$ sent in the subsequent dealings, and the stock ed only & Weent, above its lowest price of the day. There was really nothing new in the enditions now affecting the property to latter, were, however, attended by a number of board room rumors which hardly require repeating in view of their utter lack of foundation, and this is also true of the equally wide fluctuations in American Tobacco. The reappearance of pronounced pressure in the instance of Northern Pacific common, under which that stock declined over I point, was doubtless of some weight in shaping the day's speculative sentiment, in view of the recent discussion of the company's affairs, but there was no change whatever in the latter today. The market closed dull and heavy.

The local movements of money this week are described by the New York News Bureau as follows: This week, according to bank reports, has been charasterised by a steady call for money from the country for the movement of the crops. The drain is coming late in the season, but it is increasing in a decided way. This week the loss by the direct shipment of currency by axpress is estimated at \$2,000,000, and, in addition, the banks have shipped \$3,200,000 through the transfer system of the Sub-Treasury. The imports of gold which will be reflected in the bank averages to-morrow are about \$3,200,000 and offset to the above losses. At the Treasury, apart from the currency transfers, the banks have gained \$6,000,000. The New York Sub-Treasury's regular daily reports indicate for the full week as follows: Total receipts \$24,000,000 from other offices of the Treasury Department; total parments \$30,000,000, including \$3,200,000 transfersed and \$300,000 from other offices of the Treasury Department; total parments \$30,000,000, including \$3,500,000 to other Treasury offices."
